

NOTHING IN SIGHT FOR THE STRIKERS BUT A HARD FIGHT TO A FINISH.

EMPLOYERS HOLD OUT NO HOPE FOR A SPEEDY SETTLEMENT—NON-UNION MAN HAS A
RUNNING BATTLE WITH STRIKERS—ENTIRE STATE FEELS
THE EFFECT OF THE STRIKE.

SAN FRANCISCO, July 31.—There were few changes in the local labor situation today. The employers announce that they are prepared to continue the fight indefinitely and declare that they will not yield, whatever the cost to commerce may be.

The employers hold out no hope for a speedy settlement of the trouble. There is, they say, nothing in sight but a hard battle. Two of the big steamship companies claim that they are getting non-union men to fill the places of some of the strikers and believe they can, within a short time, secure all the men needed to operate their boats. An intimation was made this morning that the steamship companies would, if necessary, bring men to San Francisco from other points in the United States.

A few non-union men were employed as longshoremen on the docks of the Oceanic Company and the Pacific Coast Steamship Company this morning. On the former a gang worked half the night, putting cargo aboard the steamer Sierra, which is due to sail for the Colonies tomorrow. The steamer will probably get away nearly on time.

The Pomona, for the Sound, will sail this afternoon. Two small gangs of non-union longshoremen are at work loading her. Arriving vessels today were deserted by their crews, who immediately reported at the headquarters of the Sailors' Union. Several foreign vessels are being loaded by their own crews, who have no connection with local labor unions.

MORE DRIVERS OUT.

The drivers for the Pacific Transfer Company were called out today, and left their work on the order of the Teamsters' Union Brotherhood. This will have a serious effect on the handling of baggage. The teamsters were also ordered out and delegates are busy calling the attention of the men to the strike order. This new development

may put a stop to building operations throughout the city. The men employed by Gray Brothers and the City Street Improvement Company may also quit work.

A number of minor disturbances occurred in various parts of the city, but no serious trouble was reported. The police act promptly wherever a crowd gathers and the idlers are quickly dispersed.

STATEMENT OF THE EMPLOYERS' ATTORNEY.

SAN FRANCISCO, July 31.—Attorney M. F. Michael, attorney for the Employers' Association, said today:

"The situation as far as the association is concerned presents nothing new. There has been no change in the attitude of the employers, and no change has been discussed or considered. No conference with the unions has been proposed and none is expected.

"Men are being steadily obtained to fill the strikers' places. The drymen have a large force at work and I understand other branches of business are meeting with like success."

RUNNING BATTLE WITH THE STRIKERS.

SAN FRANCISCO, July 31.—C. F. Blair, who came to this city from Bakersfield to work for McNab & Smith, the drymen, had a running battle with three union men early this morning in the vicinity of Buchanan street and Golden Gate avenue, during which he attempted to use his revolver. Luckily the cartridges would not explode, although Blair pulled the trigger repeatedly. The strikers finally closed in upon the non-union worker and gave him a severe beating, as a result of which he is occupied with his injuries.

FRUIT SHIPMENTS ARE VERY LIGHT.

SAN FRANCISCO, July 31.—The situation in the wholesale fruit market remains practically the same as yesterday. The receipts and shipments are light, only contract fruit arriving in any considerable quantities. The different houses so far have been able to handle all their consignments both in the draying and warehouse departments. Houses that were severely crippled yesterday on account of the walkout of their porters, packers and warehousemen claim to have filled the vacancies and to be in as good a position as before the trouble. This is not the case on the Water Front. There the need of experienced hands is keenly felt.

STOCKTON FEELS THE EFFECT OF THE STRIKE.

STOCKTON, July 31.—The general tie-up on the San Francisco water front has had a somewhat depressing effect in business circles in this city, some of the grocery firms expressing the belief that it might result in causing them considerable difficulty in getting goods from San Francisco. The strike will not tie up the steamer lines, as they will continue to carry passengers and transport freight to and from way stations. The freight business from the bay, however, is greatly decreased, and the local business generally is greatly lessened by the strike. Fruit and vegetable raisers are suffering the most.

AN ANARCHIST IS ARRESTED AT ZURICH.

ZURICH, Switzerland, July 31.—An anarchist named Gallotti was arrested at Vienna last night, by order of the Prosecutor-General, on information received from Paterson, N. J. Many documents were found at his lodgings.

FIVE HUNDRED PAINTERS WILL GO ON A STRIKE.

Next Saturday night, the demand of the painters who are members of the Painters and Decorators' Union will go into effect. It aims at an increase in wages from \$3 to \$3.50, the latter figure being the same which is now paid the decorators in the Union, the painters believing that they are entitled to receive as much wages as are their fellow craftsmen.

The demand will be denied by the Master Painters' Union. A walk-out will then take place in which the decorators will take part out of sympathy with their fellow workmen.

The Painters' and Decorators' Union is a strong one. It has, it is estimated,

being a col. at the Central Emergency Hospital.

DECLARES THE STRIKE IS MORE GENERAL.

SAN FRANCISCO, July 31.—"The strike is more general today," said President Goff of the Labor Council today. "Additional men have left their employment, and at this time practically nothing is being done in those trades involved in the strike. All shipping has tied up, and as the days pass the effect of the strike will be felt everywhere throughout the city. It is in the power of the employers to end this trouble, and if they do not the city can hold them accountable. We cannot retire from our present position and will not retire until we have won our battle. It is a fight for the union principle—a fight that must succeed. There are now over 20,000 men involved in the strike, and possibly before the week ends the number will be increased to 25,000. Of this large number of men none are dissatisfied with the situation and there is a tendency to submit to the terms of the employers. The men know it is a fight for their right to organize for self-protection, and for that right they will fight to the last."

THE PACKERS AND PORTERS NOT ALL OUT.

SAN FRANCISCO, July 31.—Not all of the packers, porters and warehousemen have left their employment as yet. The union has a membership of 2,000, and of this number President O'Neill estimates that 1,200 have quit work. Strenuous efforts are being made to bring the balance of the men out this evening.

EIGHTY POLICEMEN ARE SWORN IN.

SAN FRANCISCO, July 31.—Eighty special policemen were sworn in as guards of the peace at Chief of Police Sullivan's office this morning, pursuant to a resolution passed by the Board of Police Commissioners last night. The men are to be paid by the Mayor and the City Detective Bureau and are under the control of the same, being vested with police powers.

TRANSFER MEN TO GO OUT TOMORROW.

SAN FRANCISCO, July 31.—The Pacific Transfer Company's employees have decided to go out tomorrow. The company has about fifteen wagons, which are employed in the hauling of baggage.

This will greatly inconvenience the traveling public, and General Agent T. H. Goodman and the other passenger agents were in consultation to devise means to prevent travelers from experiencing trouble.

The Pacific Transfer Company's men notified their officers early this morning.

EFFECTS OF STRIKE IN THE SOUTH.

SAN DIEGO, Cal., July 31.—The effects of the San Francisco strike are being felt heavily in Southern California. Prices of vegetables and fruits have advanced, that of potatoes being marked. Some San Francisco houses have instructed their local agents not to make shipments of goods, and products from the northern part of the State are being received in very limited quantities. Advances have been received from San Francisco merchants saying they could not promise to fulfill orders during the strike, as they could not move their goods.

EVERY GARRISON IS PLACED ON WAR FOOTING.

LONDON, July 31.—A dispatch to the Pall Mall Gazette from Budapest says: "In consequence of the agitation in Albania, Austria has ordered every garrison in Bosnia and Herzegovina to be immediately placed on war footing. Additional regiments leave Vienna this week for Sarajevo and Banjaluka. All the officers on furlough have been ordered to rejoin their regiments."

CHRISTIANS ARE IN DESPERATE CONDITION.

CONSTANTINOPLE, July 31.—The excitement among the Albanians at Prishtina is becoming more acute. The Christians are reported to be in a desperate condition, and the foreign ministers here have made renewed demands at the Yildiz kiosk that the government protect the lives and property of the Christians.

HAYWARDS FRUIT GOES TO SAN JOSE.

SAN JOSE, Cal., July 31.—The big strike now on in San Francisco will undoubtedly turn considerable profit into the channels of trade here. Already negotiations have been made by several San Francisco packing houses to have their fruit handled by local concerns. The Serrano Company of Guadalupe yesterday received three carloads of apricots from Haywards and expects more today and on to the close of the season. Other packing and drying institutions count on handling bay fruit in a short time.

THE STEEL STRIKE IS STILL ON.

NO DEFINITE PLANS AGREED

CIATION MEN.

Strikers are Watching the Plants

Feared.

PITTSBURG, Pa., July 31.—The outcome of the deliberations of the Executive Board of the Amalgamated Association of Iron and Steel Workers upon the propositions of the United States Steel Corporation officials for the settlement of the steel strike is still hanging in the balance.

While nothing definite was accomplished yesterday the more sanguine element seems to be still in the majority and better news is hoped for today. From what could be learned in spite of the secrecy maintained, the older and more conservative members were willing to accede to the propositions made to them by the other side, but the younger ones displayed a spirit of greater independence and a reliance upon the power of the organization to force better terms than those submitted to them.

As upon the members of the Executive Board left the building for lunch, President Shaffer said there was a meeting this morning and that there would be another this afternoon. It is reported that Shaffer will meet the local manufacturers

KILLED SEVEN OF THE REBELS.

MANILA, July 31.—Lieutenant Croft of the Nineteenth Infantry, with a mounted detachment of Cebu scouts, has had an encounter with sixty insurgents. Seven of the rebels were killed and thirteen taken prisoners. Of Lieutenant Croft's force, two privates were slightly wounded.

The Philippine Commission has passed the Manila civil charter, which will go into effect immediately.

The rate of taxation on real property has been amended, it being fixed at 1 per cent for the present and 2 per cent after 1902.

Tomorrow all the military cable and telegraph lines will be opened for commercial use.

WILL SETTLE THE MOLDERS' STRIKE.

CHICAGO, July 31.—A settlement of the molders' strike is expected this week by Henry A. Hoyt, president of the National Foundrymen's Association. The presence of President Martin Fox of the International Union of Iron Molders, whose arrival is expected today, will, it is believed, result in a conference between the National officers and the men, in which meeting the present trouble will be adjusted.

SENDS WORD HE WILL STAND BY OUR FLAG.

VARDOE, Norway, July 31.—The American flag, the flagship of the Baldwin-Ziegler North Pole expedition, which sailed from Tromsø July 16, touched here and proceeded last night direct for Cape Flora, Franz Josefland. Mr. Baldwin sends a farewell message to the United States as follows:

"All well. Await one of the best efforts. We will stand by our flag."

APPROVED THE BILL SUSPENDING MARTIAL LAW.

BUENOS AYRES, July 31.—The Chamber of Deputies has approved the bill suspending martial law. President Roca will promulgate the bill today.

HAYWARDS LINE SOLD TO TRANSIT COMPANY.

SAN FRANCISCO, July 31.—W. G. Henshaw, president of the Union Savings Bank, and the representatives of the Oakland Transit Company held a meeting here this afternoon and at 2:30 o'clock completed the deal whereby the Oakland, San Leandro and Haywards Electric Railway Company's line passes into the possession of the Oakland Transit Company.

Mr. Henshaw was willing to buy all the street railroads of the Oakland Transit Company, and offered the latter \$20 a share for 120,000 shares, or \$3,600,000 for the entire transit system. This offer was refused by the latter company and Mr. Henshaw was at once made a proposition to sell the Haywards line. It was this offer that was accepted this afternoon.

Mr. Henshaw found that he could not buy the Transit lines because the

FIELD MARSHAL COMES IN FOR

Proposition to Give Him \$500,-
000 for His Services
in Africa.

LONDON, July 31.—In the House of Commons today, proposing a resolution granting Field Marshal Roberts 100,000 pounds for his services in South Africa, A. J. Balfour, the government leader, in the course of a eulogy of the Field Marshal, said there was no doubt that but for Lord Roberts' daring and strategy and the rapidity with which his plans were carried out, Kimberley and Mafeking would have fallen, 11,000 British would have been starved into submission at Ladysmith and there would have been a general rising of disloyalists in South Africa.

The country was saved from this by the genius of the man he now invited the house to reward by a unanimous vote, irrespective of political differences. The statement called forth protests from the Irish members. The Liberal leader, Sir Henry Campbell-Bannerman, concurred in the motion.

John Dillon, Irish Nationalist, strongly opposed the vote. He declared Lord Roberts had shown the greatest inhumanity in South Africa and said he employed barbarous methods and had proved himself a dismal failure.

Mr. Labouchere, Radical, protested against granting gratuities to military men while nothing was given to civilians who were doing something for the benefit of their country.

Mr. Kier-Hardy, Socialist and Independent Labor, took a similar view. He declared that in the opinion of experts at home and abroad, Lord Roberts' failure primarily was responsible for the continuance of the war.

Mr. Swift MacNeill, Irish Nationalist, said he considered Lord Roberts' operations were conducted with a maximum of cruelty and a minimum of humanity, and that his farewell speech at Cape Town was horrible hypocrisy and blasphemy.

After further debate for and against the measure, Mr. Balfour moved the closure, which was carried by 27 to 10 votes. The resolution was adopted by a vote of 234 to 73.

SCHLEY'S LETTER HAS ARRIVED.

WASHINGTON, July 31.—It was announced at the Navy Department today that the letter of Rear Admiral Schley acknowledging the receipt of the precept to the court of inquiry and making certain suggestions with reference thereto, had at last been received. No explanation of the delay in its arrival and no statement of its contents were furnished. Judge Advocate Lemly simply announced that the letter had arrived and would receive consideration. He declined to answer all interrogatories, basing his refusal upon the order of the Secretary prohibiting officers from discussing the case. Captain Lemly departs on his annual leave Saturday and the supposition is that Admiral Schley's letter will be considered before that time and that whatever action is to be taken on the admiral's representations will be taken at once.

BURNED TO DEATH IN A FIRE AT HOME.

NEW YORK, July 31.—James McCoy and his two children, William, aged 2, and Edna, aged 1, were burned to death today in a fire in their home in Brooklyn. Mrs. Mary McCoy, the mother, was probably fatally hurt by falling from a window to the ground. The fire was caused by the overturning of a can of petroleum.

With this dock in this vicinity ships as large as the Oregon and Wisconsin can be taken to Mare Island and put into the slip for cleaning and repairs, thereby avoiding a long trip north to Port Orchard.

WHOLE COUNTRY AGAINST CASTRO.

WILLEMSTAD, Island of Curacao, July 31.—Dr. Rangel Gardias, at the head of \$5,000 en, has revolted against President Castro of Venezuela. The insurgents are near San Antonio de Tachira, on the Colombian frontier. The Venezuelan government has sent 10,000 troops to the scene of the uprising. The situation is grave. Other outbreaks are expected. The whole country is ready to rise against President Castro. Constitutional guarantees have been suspended and complications with Colombia are feared.

MARTIAL LAW HAS NOW BEEN DECLARED.

WASHINGTON, July 31.—The State Department today received the following telegram from the American legation at Caracas:

"Martial law has been declared in Venezuela by the President of the country in consequence of the invasion of a revolutionary force from Colombia. It is reported that an army of 10,000 men will meet the invaders."

Under the New Order of the
Brotherhood, Baggage Can-
not be Removed.

The only change in the status of the walk-out which took place yesterday on the part of local transfer men in sympathy with the striking teamsters of San Francisco is the fact that an embargo has been placed upon the removal even of baggage by any member of the Brotherhood of Teamsters, pending the settlement of the strike on the other side of the bay.

Until late yesterday afternoon, baggage to and from San Francisco was exempt from proscription. The interdiction was placed upon it because it was discovered that some of the expressmen which were allowed to run were bringing forbidden freight here under cover of baggage and furniture. As it now stands, nothing can be carried between the bay cities by a consistent member of the Brotherhood of Teamsters, no matter how greatly needed that article may be on one or the other side of the bay. As a consequence, the amount of material exchanged between the cities referred to has been immeasurably reduced, being limited to what can be carried across in vehicles owned by men who drive them or the officers of the several transportation companies who have gone into the business of guiding teams themselves.

The single exception to the rule on the two wagons of the Austin Freight and Transport Company, the drivers of which are non-consenting members of the Brotherhood of Teamsters, who, as they drive through the streets, are accompanied by Policemen. These

OAKLAND HARBOR NEWS NOTES.

Workmen Leave the Ships on the Front to Join the Strikers.

Unless the present strike comes to some sort of a definite settlement within the near future, every form of industry on the water front will be completely paralyzed. As it is now, the ship joiners in Dickey's, Boole's and Hay & Wright's ship yards have laid down their tools at the signal from the labor organizations. Delegates are working quietly but energetically among the men of other trades in these yards, trying to convince them to leave their work and join the ranks of the strikers. Whether this result can be effected time alone can tell.

Vessel Tied Up.

Owing to the action taken by the Water Front Federation of San Francisco yesterday of turning out to the last man in sympathy with the teamsters, many vessels may be expected to tie up on this side of the way unable to secure crews to take them to sea. Among the first of these unfortunate vessels to arrive in the estuary is the L. E. White Company's steamer Almazar, now moored immediately at the foot of Dickey's ship yard. She arrived yesterday afternoon in charge of the Captain, who before leaving her had her anchors cast and, in fact, made preparations to leave the boat in its present position indefinitely. The temporary loss of this vessel will mean hundreds of dollars to the L. E. White Company, as the owners depended upon her for the transportation of general merchandise and lumber, not only along the coast, but also foreign ports.

They Left the Ship.

The members of the crew of the Mary Winkelman, who have been living on the vessel since she was placed on the ways in Hay & Wright's yard, left their posts yesterday afternoon at the request of the delegates sent over here from San Francisco by the strikers for the purpose of urging these men to desert the ship in sympathy with the general cause of the striking organizations.

Six New Lighters.

Six lighters are now in process of construction at J. C. Beale's shipyard for the Northern Commercial Company. They are thirty feet long by ten feet wide, and when completed will be engaged in the beach trade of some. The estimated cost of these lighters is \$1,000. They will be completed either in the middle or latter part of August. Several boats are being built in the same place for the vessels of the construction in Hay & Wright's and Dickey's yards.

Steamer Berkeley

The steamer Berkeley is suit on the ways at Boole & Son's ship yard at the foot of Adeline street. She will be ready to take up her former run between Oakland and San Francisco tomorrow or Thursday.

RAILROAD SUES TO RECOVER PROPERTY.

The Southern Pacific Company has commenced suit against Sarah A. Wright and W. C. Hobler to effect them from property at Alhambra. It is recited in the complaint that the property in question is within 200 feet on either side of the railroad track from San Jose to Sacramento. By act of Congress in 1862 the Central Pacific Railroad Company was granted a right of way to construct the railroad. The Southern Pacific Company claims a right to the property by virtue of a lease for ninety-nine years from the Central Pacific Railroad Company. It is alleged that the defendants took possession of the property after the Central Pacific Railroad Company had acquired title to it.

NO LOTTERY FOR LOCAL MERCHANTS

Prize Schemes and Program Advertising are Roundly Condemned.

The meeting of the Directors of the Merchants' Exchange last night centered in the discussion of one question, "Is the giving away automobiles and other goods a detriment or an encouragement to trade?"

At the request of the chair several of the directors gave a brief description of the locomobile scheme which has for its apparent purpose the enhancing and encouragement of trade conditions.

F. Sinclair said that he held out, believing that merchants in condemning trading stamps had agreed to keep out of such schemes. When he found that other merchants were going into it and in self-protection, he decided to go into a similar scheme. He believed that the way to beat this prize scheme was for everybody to go into it and run a lottery scheme of his own until the business community gets tired.

"It's a straight out lottery scheme," said Mr. Sinclair, "and I have no doubt that it could be stopped by law if any one would take hold of it."

Theodore Gier, I have not been interviewed by the agent of the scheme, and if I had been I don't think he would have come again. I might have been foolish enough to get into such a scheme once, but I know more now. Then there was an advertising scheme on which Oakland was worked on account of postoffice employees souvenir. It is now being run on San Jose and other places by a regular promoter. I saw him there the other day, and from there he will go on to some other place I suppose. I should think Oakland merchants had been worked often enough to be wise by this time.

"This locomobile scheme," said Mr. Sinclair, "is being worked up by some fellow from Chicago, and after he has done Oakland he goes on to Portland or to some other place. He makes it a regular business and of course there is money in it for him. The public I suppose don't think of the remote possibility of winning, with say thirty-five merchants let in for a consideration, who are each given 5,000 pieces of paper, and to give away a prize. A person who receives one stands one chance in 200,000 or 300,000 to win. Why, the regular lottery agencies offer better inducements, and this is nothing but a lottery anyhow."

D. C. Brown, I believe that if there is any law that will suppress this scheme it ought to be invoked. I move that a committee be appointed to take legal action.

The chair appointed on such committee D. C. Brown, H. Gard and Theodore Gier.

The committee was authorized to consult with the City Attorney and ascertain if there is any law to prevent the carrying out of the scheme and to report upon the whole matter.

The following resolution was adopted relative to the abolition of program advertising: "Resolved, By the Merchants' Exchange of Oakland that the secretary is instructed to circulate the following agreement and the merchants are requested to sign the same:

"We the undersigned merchants and business men of Oakland hereby agree that for the period of one year from September 1, 1901, we will not advertise in any program, order of exercises or any notice of entertainment which may be issued by, or for the benefit of, any society or organization for social or other purposes."

The Fourth of July Committee reports but little encouragement in the collection of subscriptions. Director Gier claims that the proprietor of the Santa Rosa saloon has repeatedly refused to contribute the donation of \$5 promised by him to help the celebration along. Whereas other merchants have not absolutely refused still they are very slow in forwarding the amount of their original subscriptions.

A joint meeting of the viewers of the new tunnel will be held at the mouth of the tunnel next Friday.

The Alameda license cases have been set for hearing before Judge Greene next Friday.

SENATOR PERKINS SENDS LETTER TO THE COUNCIL.

City Clerk Roderick W. Church has received a letter from United States Senator George C. Perkins in response to the copy of a Council resolution sent to the Senator some time ago, in which resolution the California members of Congress were asked to secure the passage through Congress of a suitable measure to prevent the coming of Chinese and Japanese laborers to the United States. In his letter Senator Perkins says: "In reply I will say that it will afford me great pleasure to present the resolution to Congress and have the same referred to the proper committee for their consideration immediately upon the convening of Congress next December. It may not be proper for me to add that I am personally in full accord with the letter and spirit of the resolution."

LIVERYMAN J. D. HUNT MAKES A STATEMENT.

Liveryman J. D. Hunt enters emphatic objections against certain statements appearing in print saying he was attempting to use the Police Court as a collection agency. He claims that while he was willing to accept a monetary consideration for the loss of the horse alleged to have been driven to death by Frank S. Bear and companion, yet he was anxious to see the matter that is said to have killed the horse prosecuted. "My experience," he said, "in the Police Court was far from gratifying to a taxpayer. I was told to go to a lawyer and pay him to prosecute a case of aggravated cruelty."

BAND USED FOR BOYCOTT.

Cooks and Waiters are After the Barnum Restaurant.

The Cooks' and Waiters' Union commenced a boycott on Barnum's restaurant at Seventh and Broadway shortly before noon today, because of the change in the method of the management which allows its employees to work seven days a week.

About a dozen waiters, each wearing a red ribbon on his breast, walked up and down in front of the entrances to the restaurant, informing the passer-by and the onlookers that the place was an unfair restaurant.

"We do not," said one, "want the earth. 'All we want' is one day of rest in seven. This is an unfair house, and we ask you not to patronize an unfair house."

Said another: "The Lord saith, 'Six days shalt thou labor and on the seventh rest.' There is no rest here. Please do not patronize an unfair house."

No two of the pickets had the same method of appealing to the auditors.

While the pickets were at work, a big express wagon, with muslin signs on sides and end, was driven in front and on the side of the restaurant. Inside the muslin signs was a brass band which played rag-time music almost constantly. On the side signs was painted the following:

"Two hundred cooks and waiters of Oakland request the public to refuse to patronize Barnum's Restaurant, Seventh and Broadway. They refuse to grant the request of one day of rest in seven."

On the end of the wagon was the following:

"All restaurants of Oakland grant their employees one day of rest except Barnum's, Broadway and Seventh street."

Regarding the boycott, Tony Pagge, senior member of the firm of Pagge & Lavorel, proprietors of the place, said: "We did not force our men to come to work seven days. They want to work every day. When they laid off they spent money and they concluded it was better all around to work. They have a right to do what they want to do in the matter."

POLICE COMMISSIONERS HOLD A MEETING.

At a meeting of the Police and Fire Commissioners this morning Commissioners Easton, Turner and Johnson were present.

Action on Auditor Breed's communication relative to the Contra Costa water bills was laid over one week upon the suggestion of City Attorney Johnson.

Wm. T. Bradley was appointed patrol wagon driver in the police department in place of James Little, dismissed.

A J. Trestler, was appointed sub-driver in the Oakland Fire Department.

Twenty-six claims aggregating \$872.55 against the Fire Fund were allowed.

The application of W. F. Howlett for the position of patrol driver was placed on file.

The Council resolution requesting the Board of Police and Fire Commissioners to dispense with the services of all employees not absolutely necessary until July 1st, 1901, was adopted.

The following communication was received from N. A. Ball, Chief Engineer of the Fire Department:

"To the Honorable, the Board of Police and Fire Commissioners, Gentlemen: I herewith tender my annual report of expenses and working of the Fire Department, (including report of Assistant Engineer and Fire Warden) for the fiscal year ending June 30, 1901, and respectfully ask that your honorable body have one hundred copies of said report, also the reports of 1899 and 1900, printed. Respectfully submitted.

THE STEEL STRIKE IS STILL ON.

(Continued From Page 1.)

In conference at the Hotel Lincoln this afternoon.

THIRTY MORE STRIKE.

PITTSBURG, Pa., July 31.—A strike of thirty men, members of the Amalgamated Association, employed at the Twenty-ninth street mill of the Carnegie Steel Company, last night because of the discharge of one man, Patrick Feney, a rougher, was settled today by the reinstatement of Feney and the strikers returned to work.

STRIKERS WATCH.

PITTSBURG, Pa., July 31.—The McKeesport strikers were restless all night and there was more excitement than at any time during the strike. Rumors of the company attempting to steal a march on the DeWees-Wood men and bring a train load of non-union men while the peace conference was on kept the pickets and patrols on the alert, and the evident readiness of both the Wood and the DeWees plants to stand up a few minutes' notice increased the feeling of uneasiness that was prevalent, but no attempt was made at either plant to resume.

SHAFER IN MINORITY.

It is believed that if President Shafer cannot impress the other members of the board with his views today he will hold another conference tomorrow. Mary, however, said that today will be the final test, and if a settlement cannot be effected at this sitting an extension of the strike to all of the union plants of the United States Steel Corporation will be ordered. Manufacturers declared that if the workers do not agree at this time to the proffers of Mr. Morgan, all negotiations will be dropped, and a further conference will be possible. They also declare that in the event of a failure to settle the trouble amicably the combine will use every endeavor to start a large number of its plants within two weeks.

PITTSBURG, Pa., July 31, 2:15 P. M.—A note sent in to President Shafer stating a report was current that the board had rejected the peace proposition and was arranging to spread the strike, elicited the reply:

"I have nothing to say."

The conference had not yet resumed.

wagons, however, do not connect with the Southern Pacific ferries. They run in connection with the steamer Mt. Eden which lands at the city's warehouse on the water front. Before the strike in San Francisco, the Mt. Eden made two trips a day. Since the strike, she has been making only one trip a day, owing to the difficulty of securing freight on the other side of the bay.

The presence of officers on wagons is painful to teamsters who have taken part in the walkouts. The latter say the posting of the police is an attempt to show that the Brotherhood of Teamsters contemplates violence. Speaking on this subject, Business Agent Johansen of the Brotherhood of Teamsters said today:

"The police have no business on those wagons. They are paid to patrol beats and protect people and property. There is no danger to the men or the property of the Austin Freight and Transportation Company."

WANTS CHARGE OF MURDER SET ASIDE.

Attorney L. S. Church this morning filed a motion to set aside the information charging Charles G. Adams, the unfrocked minister, with the murder of his friend, Dr. J. G. Jessup. The ground upon which the motion is based is "that before the filing of the information the said defendant had not been legally committed by a magistrate for the offense charged in said information."

Adams was held for manslaughter by Justice of the Peace Edgar of Berkeley. The district attorney, however, filed an information charging him with the crime of murder.

A continuance of one week was granted. The motion will be argued before Judge Melvin.

SHORT MEETING OF THE BOARD OF WORKS.

The matter of inviting bids and proposals for sweeping the streets and advertising for the same in accordance to Council resolution was laid over for one week.

The union members hold that there is little work to be done after 2 o'clock on Sunday, and that it is useless to keep places open and men idle during the rest of the day when they might be in the enjoyment of rest and recreation. There are some bootblacks who do not belong to the union and an attempt is being made to induce them to join the ranks. The union is being assisted by the barbers, who sympathize with its members.

WEDNESDAY, JULY 31, 1901
REGULATING AUTOMOBILES.

Although it will doubtless be a long time before residents of the Pacific Coast are subjected to the dangers of seventy-miles-an-hour automobiles, the clamor of opposition that is going up back East to the speed performances of young Vanderbilt on the public roads shows that the hour is at hand when the operations of such vehicles will have to be regulated by general law. Our present statutes make no provision for such forms of locomotion, for in the past it was not contemplated that it would be necessary to regulate the speed of any vehicle not traveling on independent tracks, such as street cars and trains. In view, however, of the increase of rapidly-moving automobiles, protection from such dangers will have to be accorded the other travelers on the high roads.

In Europe the maximum speed allowed in the open country has been restricted to eighteen miles an hour, and the use of the alarm horns has also been circumscribed. The horn must no longer be employed for the sole purpose of clearing the way, but is merely to be sounded when giving notice of approach in dangerous places or to avoid accidents. This seems reasonable enough, for those who have read during the past few days of how Vanderbilt recently covered a mile in forty seconds on a New England road must have realized the peril in which the passers-by were placed. The automobilists claim that one of their vehicles when being driven at full speed can be brought to a standstill within two yards, whereas a horse traveling at a slow pace cannot be stopped in less than seven yards, but even so the rapidity of approach presents an element of danger that cannot be overcome, for persons crossing roadways are not all able to figure the time at their disposal.

Regulating statutes are therefore a necessity and general legislation on the subject will doubtless be in evidence throughout the country during the next year or two.

General Chaffee has ordered that all the soldiers in the Philippines must wear their coats buttoned when outside of barracks. This is doubtless to check the extensive button-holing that is threatened since so many of our politicians vended their way to our Oriental possessions.

Lord Roberts is to receive £100,000 from the English treasury for his services in the Boer war. According to the way the Britishers figure, this means a good many "bobs."

Seven hundred dollars in currency has been found in an old hat worn by a miser lately deceased. Its former owner always had something a-head.

T. C. COOGAN ON THE ASSESSMENT.

WELL KNOWN ATTORNEY EXPLAINS THE PROVISIONS OF THE CHARTER.

Says That The City Council can Raise the Figures of Assessor Dalton.

Editor Tribune: You ask me what remedy the city has in case the County Assessor fails to assess property within its limits, or the assessment made by him does not conform to the true value of such property in money.

I answer, the charter very plainly gives a remedy in both instances. In case the assessment thus made omits any property in the city it becomes the duty of the City Assessor to assess it. This he is obliged to do. He should make this assessment between the first Monday of July and the fourth Monday in August, and he should enter it in the assessment roll under the head "subsequent assessments" and deliver the same certified by him to the City Clerk.

On the other hand, if the property is embraced within the assessments made by the county officer, but is incorrect, in that it does not conform to the true value of the property in money, then the City Council, exercising its undoubted power of equalization, can furnish a complete remedy.

That it has such power is apparent. The charter intended that the City Council, exercising its function of equalization, should possess and perform the same powers and duties, respecting the equalization of assessments of property within the city, as those of the Board of Supervisors in regard to property within the county.

This is a part of the scheme prescribed by the charter relating to revenue and taxation. The extent of the City Council's powers and duties in this respect, sitting as a Board of Equalization, is governed by certain provisions of the State Constitution and the general laws, as though they were inserted in the charter itself. Both the constitution and the political code give the Boards of Supervisors acting as Boards of Equalization power over assessments of property as they come from the hands of Assessors, and places the duty upon them of making such assessments conform to the true value in money of the property embraced in those assessments.

A like power is possessed and a like duty is cast upon the City Council. Our Supreme Court, in defining what is meant by equalization, has said: "To equalize is to make equal, to cause to correspond or be like in amount or degree, as compared with something." Again, speaking of the powers of such county boards as contra-distinguished from State Boards of Equalization, the same court said: "To compare the individual assessments upon the assessment roll, one with another, and make them equal."

The assessment of property for purposes of taxation has always been a function of the executive branch of our government. The Assessor is required to ascertain and determine the value of property, and for that purpose he may make such inquiries or receive such information as he desires, and the valuation he places upon it is the exercise of his judgment.

By a strange and peculiar provision of our city charter this judgment is exercised by a county officer, and not by a city official, but the charter has wisely provided a tribunal for the correction of errors if any should be made; for it makes it incumbent upon that body, sitting as a Board of Equalization, to equalize the assessment that that officer furnishes to the city by making it conform to the true value in money of the property described therein. Of course, if correct, or if no correction is made by the City Council, then the valuations made by the County Assessor are final.

SPORTING NEWS OF THE WEEK.

West Oakland Club Prepares to Give a Boxing Night.

Sporting matters are rather quiet in the club-rooms at present as many of the boys are away on their vacations. However, there is a lot of out-door sports to keep the athletes busy.

Things are picking up considerably at the club lately and in a short while the club-rooms will be as lively as formerly as a number of the members who are away on their vacations are returning and will soon live the place up again. The match-maker is arranging a boxing card for the end of the month and is using his best efforts to secure a card for the opening of the club's winter boxing series. It will be one of the best ever put on at the club. He has several good men in view and is confident that he can give the public a fine evening's sport for the occasion.

Instructor Tye is kept busy on class night and from now on his classes will start to increase as the weather is getting cooler, the members feel more like stripping for instruction.

Interest in swimming is still kept up and a number of the members visit the baths on Wednesday and Thursday evenings.

OAKLAND TEAM WILL MEET SAN FRANCISCO.

The Dudes have been taking special practice work this week with a view to increasing the team's batting. The stick work of nearly every member of the team is unsteady. Sometimes they bat excellently in one game, only to fall down in the next. This was illustrated in the games played with Sacramento Sunday. In the morning the Dudes were invincible. They batted Strickland almost whenever and where they chose and at the end of the game had scored fourteen runs.

Sacramento had not been able to get a man past first base until after Gotschman was relieved by Babbitt in the eighth inning. In the afternoon, however, the Dudes were unable to find the ball and they played the game without a single run to their credit. Devereaux twirled the ball for Sacramento in the afternoon, while Moskman and Johnson took turns in the box for Oakland.

Tomorrow the Dudes will meet San Francisco at Recreation Park. If the Oakland team succeeds in steadying its batting the next series with the leaders should be closely contested.

Sacramento will go to Los Angeles for a series of four games.

The Oakland team has been strengthened by placing "Truck" Eagan on third base. He filled the position in very good shape.

In Sunday morning's game Streib made the excellent record of a game run, a three-base hit and two singles out of five times at the bat. In the afternoon, however, his showing was poor.

Moskman, Drennan and Francks did most of the batting for the Dudes in the last series.

Dunlevy, Eagan and Arrelanes showed that they need considerable improvement in their batting before they come up to the standard.

Captain Lohman, whose steadiness at the bat has gained for him the cognomen of "old reliable," did not show his customary accuracy in hitting the ball in the latest series.

Drennan continues to do excellent work in the field. He is one of the best fielders in the League. His throws are strong and accurate. In Sunday afternoon's game he put a man out at the home plate after having caught a long fly.

YACHTING NOTES FROM THE CALIFORNIA CLUB.

The cruise of the California Yacht Club to Martinez last Sunday did not prove as much of a success as had been anticipated, owing to the fact that several of the yachtsmen could not arrange to make the trip. Only three yachts went on the cruise. Some of the other yachts, however, made short cruises Sunday about the bay.

No events are scheduled for next Saturday and Sunday. Aside from individual cruises, affairs at the club will be somewhat quiet until August 10th, when a regatta will be held at the Narrows. A mole for a channel cruise the next day. An effort will be made to have most of the yachts take part in that event so as to make a good showing for the club.

Charles Clark and party have returned from an up-river cruise on the yacht Gypsy. J. J. Hanlin, Jr., who was a member of the party, reports having had an excellent trip. The party visited at several places on the Wild Cat Canyon.

NOTES OF INTEREST FROM Y. M. C. A. GYMNASIUM.

Next Tuesday evening the basketball season will open in the local Y. M. C. A. gymnasium. A series of interesting games have been scheduled. The first game will be played between the Spartans of Oakland and the Rushers of San Francisco. The gymnasium of the San Francisco Y. M. C. A. will be the scene of the first game.

The Juniors of the Y. M. C. A. are planning a number of cross country runs. The first will be a trip into the foothills of Berkeley. Next Saturday those who are going to participate in the run will take the cars to Berkeley, and from there will scale Grizzly Peak. The return will be made by the way of Wild Cat Canyon.

The local bicycle enthusiasts of the Y. M. C. A. are going to have a run to Brewer's Ranch and return on August 9th. The party will leave promptly at 7 o'clock in the morning from the Y. M. C. A. Building, corner of Twelfth and Clay. It is thought that a very large number will turn out.

The various athletic departments are having an increase in attendance. Vacation days are rapidly drawing to a close and as the members drift back from their summer outings, they take up with their athletic work where they left off.

Next Sunday afternoon the Rev. Vosberg will give an address to men only in the auditorium of the Y. M. C. A. The special features will be a solo by Alfred Wilkie, and an instrumental solo on the violin by Albert T. Silvers.

Young, on "The Centrifugal and Centripetal Forces in Governments"; Eugene Del Mar on "The Self," and Edward B. Payne on "The Three Great Problems of the Human Being." These lectures closed this form of entertainment at Camp Reverie, but the camp fires will continue to be lighted as the sun goes down, and the evening programs and fun and dancing will be kept up as long as the camp remains open, which from present indications will be during August at least.

Mother's Love

Is boundless. Yet it is utterly helpless to give strength to the child born with a low vitality. The time to give strength to the child is before birth and to impart this gift the mother herself must be strong. Dr. Pierce's Favorite Prescription gives strength to mothers. It preserves them in robust health in the months before baby comes. It practically does away with the pains of motherhood, and enables the mother to endow her child with a healthy body and a happy disposition. "Favorite Prescription" contains no alcohol and is absolutely free from opium and cocaine.

"I consider Dr. Pierce's Favorite Prescription the best medicine made," writes Mrs. Mary Murdock, of 220 Taylor St., Topeka, Kansas. "I know it has no equal. I am the mother of ten children and only one living the tenth one. She is one year old and is as well and hearty as they all were at the same age. Of my other babies, some were born at right time, but dead, others were premature births; one lived to be one year old but she was always feeble. I tried different doctors but none of them could tell what my trouble was. I was examined by surgeons but they said nothing was wrong. I did not know what to do, so I thought this last time I would try Dr. Pierce's Favorite Prescription. I took it the entire nine months and now have a fine baby girl, and I can not praise your medicine enough for the good it did me."

Dr. Pierce's Pellets cure heart-burn.

One of the most interesting engagements announced of late was made known today and will cause surprise and pleasure among the many friends of Dr. Howard Jarvis and Miss Alvina Decoto, the young people concerned. Both belong to old and prominent Alameda county families and are widely known and very popular. The engagement is the culmination of a romance that involved two sisters and brothers. Recently the engagement of Ezra Decoto and Miss Jarvis, both graduates of the University of California, was announced. Now Miss Jarvis' brother is to wed Mr. Decoto's sister. Dr. Jarvis was graduated from the State University's dental department and the San Jose Normal respectively. Miss Decoto was president of her class in the senior year. Our plan of investment cannot help but meet with the approval of any business man or woman; it is simple. The Company sells you 100 shares of stock for \$25, or 250 per share, the par value of which is \$1 per share or \$100. This stock is not assessable for any purpose. Upon the payment to the Company of \$25 cash, or installment, they will issue to the purchaser a certificate of stock for 100 shares of its capital stock. The Company then gives the purchaser a written agreement to allow him 50 per cent advance for said 100 shares of stock after the first year from date of purchase to apply upon the purchase price of any piece of property he desires to buy, owned by the Company. Purchasers may buy 100 shares of stock on installments, as follows: \$5 cash and \$5 per month thereafter until paid for. Larger amounts of stocks in proportion and upon the same terms.

THIS COMPANY IS BACKED BY \$75,000 WORTH OF POINT RICHMOND PROPERTY.

SOUTHERN PACIFIC WILL ISSUE BONDS.

NEW YORK, July 31.—The Southern Pacific Company is about to issue from \$10,000,000 to \$15,000,000 of new bonds to be used largely for making a change in motive power on the Texas and California lines from coal to oil, for constructing pipes to transfer the oil, and for oil properties which the company has acquired, or is about to acquire, in order to guarantee an abundant supply for years to come.

Officials of the Union Pacific have held several important conferences since the arrival of President Charles M. Hays in this city, with a view to mapping out needed improvements on the two systems. Immediate attention is to be given to Southern Pacific traffic, the growth of which has been very rapid, and which, in the opinion of the officials, that control the company, justifies the expenditure of liberal amounts for improvements and for rendering the roadway capable of hauling traffic at a lower rate of expense.

(It is stated that the Southern Pacific Company is buying large tracts of oil lands.)

WOMAN'S BEAUTY. How it is Made or Marred.

There is nothing more subtle than woman's beauty. It eludes all attempts to analyze it. A woman may have the measurements and lines of the Medicean Venus and yet lack beauty. Or she may defy artistic standards and be known everywhere as a beautiful woman. There is, however, one kind of beauty which is recognized by all and which is every woman's flower, a beauty to which the French have given the name of "The Beauty of Youth." Many a time we turn to watch some sweet, young girl, impressed by her beauty. But if we analyze the beauty we find it is made up of smooth skin, clear complexion, bright eyes, ruddy lips and round and contoured features. That beauty ought to last always. But
